Career Choices Student Text

Career Choices addresses 100% of the TEKS for Career Connections and Career Investigation. Appropriate for ALL students—whether headed for a career pathway, technical training, or college-bound—*Career Choices* teaches self-awareness, decision-making, problem solving, critical thinking skills, at the same time it presents vital career exploration information. As students uncover their unique abilities and ambitions, they develop the skills and attitudes needed to build successful careers and lives. This unique career and life-planning course presents a process that motivates adolescents not only to stay in school, but to also strive for achievement.

Instructor's Guide

The 6th edition of the *Instructor's Guide* is the most complete resource ever available for *Career Choices* teachers. Drawn from questionnaires and interviews from over 100 teachers currently using the curriculum, this 300+-page new edition includes insights, tips, descriptions of successful classroom practices, and numerous ideas for enhancing the original curriculum. Easy to use, the *Instructor's Guide* presents:

- Day-by-day lesson plans for each theme and activity in *Career Choices*
- Discussion outlines for daily class use
- Classroom extension ideas (e.g., vocabulary lists, student projects, reading lists)
- Correlations for the Career Orientation TEKS and *Career Choices*

CareerChoices.com Internet Enhancement

With over 80 individualized lessons and web-site links, **careerchoices.com** works hand-in-hand with *Career Choices* by helping students build their educational and career plans with the most up-to-date information found on the Internet. This password-protected online resource, available to students from home computers as well as school labs, enhances activities and projects throughout the student text. Easy to use, it will captivate both you and your students! Detailed instructions, learning objectives, and lesson plans for each web link are supplied for teachers. Students receive explicit directions for each lesson on their own area of the web page.

Ancillary Material – *Workbook & Portfolio for Career Choices*

This consumable workbook will be provided free of charge with each student text in the initial year a school adopts. These complimentary copies of the *Workbook & Portfolio* will be provided in the quantities equal to the number of student texts purchased.

Workbook & Portfolio for Career Choices

This low-cost, consumable text replicates the written activities, surveys, and questionnaires found in the student text. While it is optional (students could complete the activities on notebook paper), this book allows students to gather in one permanent place a written record of their self-discovery process. It structures their work in the sequential format that mirrors the planning process and procedures they are learning in *Career Choices*. Then as they grow and their aspirations change, they can refer back to this document for revisiting and revising their career plans. You'll want to encourage your students to share this valuable tool with their counselors and teachers throughout their high school tenure.
