# MyTenYearPlan.com

## NEW Online Enhancement

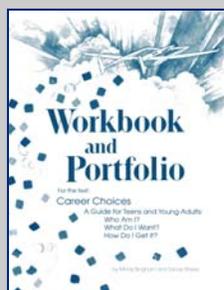

Based on the comprehensive planning process in the *Career Choices* text and its companion *Workbook and Portfolio*, this online enhancement allows students, teachers, counselors, administrators and parents to easily track students' individualized career-inclusive education plans.

## Innovative Advisement Tool

This digital planning tool makes implementation of school-wide guidance reforms easy and effective. Are your teachers involved in advisory sessions with students? MyTenYearPlan.com allows them to deliver personalized and relevant support regarding students' plans and achievement—and how they intersect. Are counselors responsible for the annual review of students' education plans? MyTenYearPlan.com makes recordkeeping for this process effortless, giving them time to do what they do best—counsel students on the best educational path.

## Efficient Planning Platform

Students can easily update their 10-year plans. Using the online planning area and the budget calculator, they can re-evaluate their estimated financial requirements for the lifestyle they envision and then match their level of commitment to getting the education and training they need.

## Exclusive to *Career Choices*

Designed exclusively to complement the *Career Choices* curriculum, one complimentary seat license is available with the purchase of each *Workbook and Portfolio*.

MY **10 YEAR** PLAN

# How it Works

1 Once freshmen students complete the *Career Choices* coursework and their *Workbook and Portfolio*, they enter **information for their 10-year plans** into their own password-protected website.

2 Every teacher and administrator is then given access to a summary of each student's 10-year plan, making advisement efforts more personal. These plans provide teachers with the information they need to give **immediate, qualitative counseling** and academic support to their students.

3 Students are given the opportunity during the course of their sophomore, junior and senior years to update and **revise their online plans** once they've reassessed their goals.

# Why it Works

Suppose Kyle is failing algebra. His teacher, Mr. Fernandez, reviews his 10-year plan online and discovers Kyle wants to be a high school history teacher and coach. Mr. Fernandez then has the opportunity to point out to Kyle that, upon review of his goals and dreams, there is a problem if he doesn't pass biology, as it is required to get into college. Pointing out the deficit, Mr. Fernandez can suggest strategies for getting Kyle back on track with his biology. If Kyle resists, Mr. Fernandez can suggest he rewrite his 10-year plan to redirect his aspirations to match his effort.

Because Kyle has completed a *Career Choices* course, he will fully understand the consequences of that action and will be far more likely to buckle down and make the effort required to complete his academic coursework.
