

# Integrate Technology into your Career Choices classroom

[www.careerchoices.com](http://www.careerchoices.com)

[www.lifestylemath.com](http://www.lifestylemath.com)

Used in over 3800 schools, the Career Choices curriculum is the recipient of a “*promising intervention*” award by the U.S. Department of Education and “*best practices*” by the U.S. Department of Labor.

# Integrated the Internet into your Daily Lessons

## [www.careerchoices.com](http://www.careerchoices.com)

The Internet now enhances the award winning **Career Choices** curriculum. With over 80 individualized lessons and web-site links, **careerchoices.com** enriches the **Career Choices** activities and research, helping students build their educational and career plans.

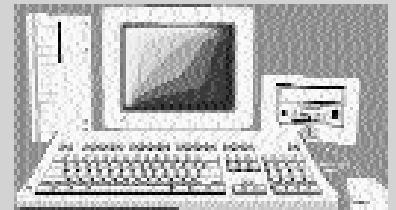

For example **careerchoices.com** has:

- *Career research tools and information*
- *Information on colleges/post-secondary ed opportunities*
- *Resume writing hints*
- *Online financial aid applications*
- *Calculators for factoring the amount of student loan debt a chosen career can support*
- *Job interview tips and practice*
- *Savings plan for college*
- *Mortgage or car loan calculators*
- *National and state labor market statistics*
- *Projected job growth for chosen careers*

It's easy to use and will captivate both you and your students! Detailed instructions, learning objectives, and lesson plans for each web link are supplied for teachers. Students receive explicit directions for each lesson on their own area of the web page.

## [www.careerchoices.com](http://www.careerchoices.com)

conserves precious teacher resources while providing students with vital information.

### **Teachers save...**

- **Time**—We've researched the sites, written step-by-step instructions, and developed lesson plans...so you have more time for other preparation.
- **Money**—**careerchoices.com** can replace, at a lower cost, the various computer programs you currently use for career exploration activities.
- **Headaches**—If links move, we track them down or replace them, so you can always get the information you need. We also update the site throughout the year with new links and lesson plans.

### **Students access information that is...**

- **Current**—Unlike print or software resources, Internet information is updated regularly. The **careerchoices.com** links provide students with the most current information available from federal, state, and private sources.
- **Relevant**—Just like **Career Choices**, the links on **careerchoices.com** allows students to easily gather information that fits their likes and dislikes, their dreams and aspirations.
- **Dynamic**—As students work through the **Career Choices** text, their vision of themselves and their future grows and changes. **careerchoices.com** provides students with a variety of resources so the results of their time online enhances their understanding of the material and themselves.

**Visit**

## ASSESSMENT TOOLS DIGITAL PORTFOLIO

# The NEW Internet Correction Key for Lifestyle Math

[www.lifestylemath.com](http://www.lifestylemath.com)

**Lifestyle Math: Your Financial Planning Portfolio** brings individualized math problems to your classroom in workbook format. This one hundred page math exercise helps students calculate the cost of their desired lifestyle at age 29. Now the **NEW Internet Correction Key** delivers a quick and easy correction tool to your students at school or home.

Here's how it works. After completing their math problems in their workbooks the old-fashioned way (with paper and pencil), students can go online to the Internet and check their answers. If their computations are incorrect, students are alerted and encouraged to rework their figures. You'll find even reluctant math students are eager to pursue the "correct" answer because the final product (their budget) has meaning to them. What once was viewed as drill and drudgery will be attacked with enthusiasm and curiosity. When students arrive at the correct solution, they can print their work and turn it in for credit.

For details, visit [www.lifestylemath.com/preview/index.html](http://www.lifestylemath.com/preview/index.html) or call our office.

## Workshop

*How to integrate Technology and Guidance into the Academic Classroom*

Featuring a Hands-On Internet Session

A fast-paced workshop specifically designed for teachers, guidance counselors, program coordinators and administrators interested in techniques for integrating the Internet into any curriculum. It is designed for beginning and experienced web surfers alike, introducing a user-friendly system even an Internet novice can understand.

New!  
Internet  
Correction  
Key

For more information about how you can bring this motivational staff development opportunity to your school or district visit:

[www.academicinnovations.com/staffdev2.html](http://www.academicinnovations.com/staffdev2.html)

or call (800) 967-8016

## [www.academicinnovations.com](http://www.academicinnovations.com)

Whether you're just starting to work with **Career Choices** or you know the books inside out, you'll find ideas and suggestions to peak your interest at [www.academicinnovations.com](http://www.academicinnovations.com):

- Browse classroom strategies developed by teachers across the country
